## TROOPS SENT OVER LINE

Orders Given and  
Near One-half of  
Columbus, N. M.,  
Troops March to  
Join Pershing.

Mexican Minister of  
War Arrives at  
Juarez on Special  
Train—Ready to  
Present Arguments  
for Withdrawal of  
United States  
Troops.

Associated Press Dispatch.  
COLUMBUS, N. M., APRIL 28.—  
MARCHING ORDERS WERE RE-  
CEIVED TODAY BY APPROXI-  
MATELY ONE HALF OF THE  
NUMBER OF SOLDIERS ON STA-  
TION HERE.

THESE TROOPS, LARGELY CAV-  
ALRY, WILL PROBABLY CROSS  
THE BORDER TO REINFORCE  
GENERAL JOHN J. PERSHING  
LATE THIS AFTERNOON.

IT IS BELIEVED THE TROOPS  
WILL BE STATIONED ALONG  
THE AMERICAN LINE OF COM-  
MUNICATION, EXTENDING FROM  
COLUMBUS TO SAN ANTONIO,  
CHIHUAHUA, ABOUT 325 MILES  
SOUTH OF THE FRONTIER.

Associated Press Dispatch.  
El Paso, Texas, April 28.—Gen-  
eral Obregon, Minister of War of  
the Mexican de facto government, is  
at Juarez today, waiting to confer  
with Major Generals Scott and Fun-  
ston on the military questions that  
are involved in the American puni-  
tive expedition into Mexico.

General Obregon reached Juarez  
on a special train this morning.  
The special presence in north-  
western Mexico of 40,000 Carranza  
troops will be the most potent argu-  
ment brought to the border today  
by General Obregon in his effort to  
persuade the American generals  
that the expeditionary force should  
be withdrawn from Mexican soil.

Mexican officials here believe he  
will assure the Americans that,  
when the last United States troops  
are crossed to the north of the in-  
ternational boundary, the de facto  
army will form behind them a line  
of patrols that will render future  
border raids on the border impos-  
sible.

Added to this, they say he will  
repeat the declaration he made in  
Chihuahua City that the chiefs of  
the Constitutional cause are in  
perfect harmony and amply able to  
control the small bands of bandits  
all at large.

There is no indication here as to  
what answer the Mexican Minister

## BRITISH BATTLER IS SUNK

Of the 800 Men on  
Board the Russell  
124 Are Missing.

German Sub Sent to  
Bottom Off the  
English East Coast  
—Crew of Eigh-  
teen Captured.

(Associated Press Cable)  
London, April 28.—Naval events  
are again to the front in the war  
news, with today's announcement  
that the British battleship Russell  
has been sunk in the Mediterranean  
by striking a mine, and that a Ger-  
man submarine has been sent to the  
bottom by the British off the English  
east coast.

There were more than 800 men on  
board the Russell and about 124 are  
missing. Eighteen men on the Ger-  
man submarine were captured.

The Russell was comparatively an  
old vessel. She displaced 14,000  
tons. She is the eleventh British  
battleship to be lost during the war.  
Another contingent of Russian  
troops has reached Marseilles for  
service on the western front.

This makes the third contingent  
whose arrival the French military  
authorities have permitted to be re-  
ported.

As in previous instances, the  
strength of the contingent is with-  
held; but news dispatches from Mar-  
seilles have indicated a belief that  
as many as 250,000 Russian troops  
would probably be transferred this  
spring to the Franco-Belgian front.

For the first time in many days,  
the French official statement men-  
tions no notable activity, even by  
the artillery, in the Verdun region.

German efforts, for the present,  
seem to be directed against the Brit-  
ish along the line in northern  
France and Belgium, where London  
last night reported activity that  
seemed to observers there to indi-  
cate that the Germans might be  
about to launch an offensive as de-  
termined as that directed against  
Verdun.

Ambassador Gerard left Berlin last  
night for German army headquar-  
ters, where he will have an audi-  
ence with Emperor William, who,  
with his advisers, is considering the  
reply to the American note on sub-  
marine warfare.

## SNOW

(By Associated Press)

Boston, Mass., April 28.—  
Snow fell over eastern Massa-  
chusetts and Rhode Island to-  
day, the latest date for an ap-  
preciable fall in more than 27  
years.

## SAM'L GOMPERS SENDS PROTESTS

By Associated Press Dispatch.  
Washington, April 28.—President  
Gompers of the American Federation  
of Labor today sent telegrams to  
Governor Willis of Ohio and Mayor  
Karb of Columbus, protesting  
against the arrests at Columbus ear-  
ly this week of two organizers of  
the Amalgamated Association of  
Street and Electric Railway Em-  
ployes of America, who, he said,  
were arrested because they endeav-  
ored to organize street railway em-  
ployes of Columbus.

## WHOLESALE GRAB IS TO BE MADE

By Associated Press Dispatch.  
New York, April 28.—A number  
of arrests are expected here soon in  
a police campaign to break up gangs  
of blackmailers who have been prey-  
ing upon wealthy visitors.

The typical blackmailing gang is  
described as including two men and  
two women.

The favorite scheme, the police  
say, has been to induce victims to  
give up money to escape threatened  
prosecution under the White Slave  
law.

## HOPEFUL

By Associated Press Dispatch.  
Washington, April 28.—Dispat-  
ches received at the German Em-  
bassy today from the Berlin Foreign  
Office indicates that Germany will  
attempt to meet the American de-  
mands for the immediate abandon-  
ment of its present practices in sub-  
marine warfare.

Count von Bernstorff has not been  
advised whether the suggestions he  
recently made to his government at  
the invitation of the Foreign Office  
have been adopted.

He expects further advices.

## SWISS, TOO

By Associated Press Dispatch.  
Berne, Switzerland, April 28.—  
The flight of a German aeroplane  
over Swiss territory in the region  
of Porentruy yesterday morning, oc-  
curring so soon after a previous sim-  
ilar flight over the same territory,  
has provoked the strongest indig-  
nance in Switzerland.

This is reflected in all sections of  
the press.

The semi-official Bund says the  
time has come to demand from Ger-  
many something more than explana-  
tions of regret or excuses.

Enormous Stude-  
baker Financial  
Interests Reported  
to Be Back of the  
Big Deal.

Are Acquiring "A  
Chain" of Public  
Utilities Properties  
—May Mean Big  
Developments in  
Future for City.

Local Interests for  
the First Time  
Since the Organi-  
zation of the In-  
itial Company in  
'75 Are No Longer  
Owners of Com-  
mon Stock.

One of the largest business trans-  
actions ever consummated in finan-  
cial or industrial circles of Wash-  
ington is being finally and formally  
closed up. Only the details remain.

As a result of the deal the entire  
ownership of The Washington Gas  
& Electric Company, which since the  
organization of the initial company,  
in 1875, has been either wholly or  
partially in control of local people,  
passes to foreign interests.

The negotiations for the purchase  
of the plant were begun some six or  
seven months ago and the prelimi-  
nary steps looking to the final ac-  
quisition of the company were taken  
several months ago.

The purchasers are H. A. Baher &  
Company of Chicago, a firm which  
has already acquired and has pend-  
ing negotiations to acquire a num-  
ber of other public utility plants  
similar to the local plant.

Mr. Baher is the practical man of  
the organization and is recognized  
all over the nation as one of the  
most expert managers of public uti-  
lities concerns now in active busi-  
ness. It is the purpose of the pur-  
chasers to operate a chain of these  
companies—following out the later  
day business methods of increasing  
the volume of business and thus de-  
creasing the cost of production.

The financial power back of the  
purchasers is generally understood  
to be the Studebaker in-  
terests, and the strength of  
that interest is a guar-  
antee that the new owners will have  
an abundance of capital for opera-  
tion and development.

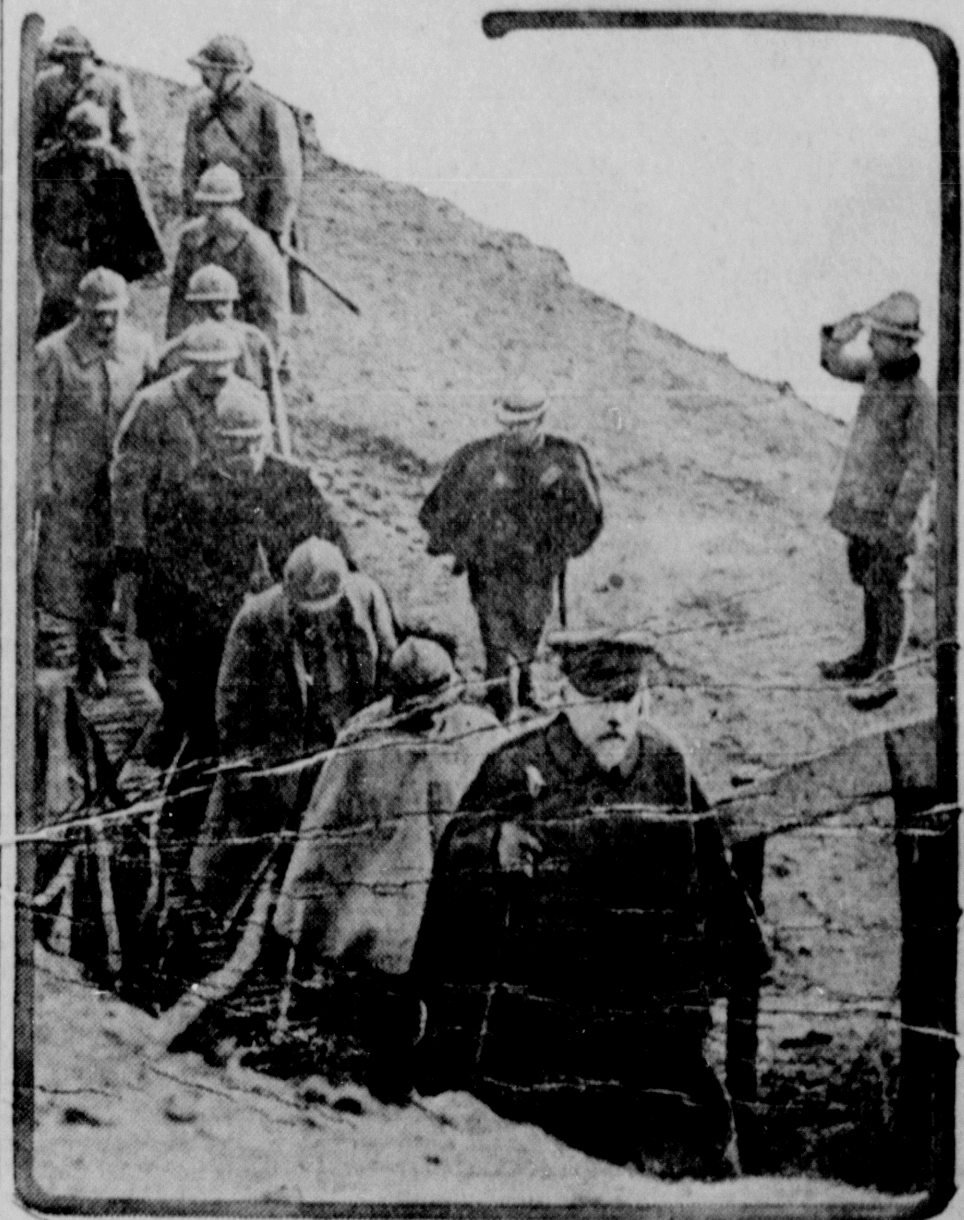

It will be seen at a glance that  
the deal just consummated "hooks  
up" Washington with a great finan-  
cial power seeking an investment for  
money and it may be the beginning  
of big developments in the way of  
traction line building or other pub-  
lic utility development.

It is understood that Mr. G. N.  
Clapp, of Middletown, who has been  
with the local company as manager  
for the last twenty years, will re-  
main in the capacity of vice-Presi-  
dent of the new organization for a  
few months in order to assist them  
in getting hold of the local busi-  
ness.

The present working force and  
employees will not be replaced, ac-  
cording to the best information ob-  
tainable.

At a meeting held in this city

## POINCARE VISITS THE VERDUN TRENCHES

M. Poincaré, president of France, accompanied by officers, on a visit to the trenches in the Meuse district. M. Poincaré is attired in a military cloak and cap of a color not easily discernible from the enemy's trenches.

Thursday afternoon the old direc-  
tors of the company, H. B. Dahl, D.  
S. Craig, Jess W. Smith, G. N. Clapp  
and Mr. Isenminger—having dispos-  
ed of their stock holdings, tendered  
their resignations.

At a meeting to be held tomorrow  
in Middletown new directors will be  
chosen.

The transfer of the business, be-  
ing confined exclusively to a sale of  
the common stock, is accomplished  
with no confusion or disturbance to  
business.

The reason underlying the sale by  
local capitalists is the disinclination  
of Mr. Clapp to remain longer in an  
active managerial capacity. For  
some time Mr. Clapp has not been  
enjoying the best of health and he  
felt that to remain longer in active  
business would be inadvisable. The  
local stockholders were averse to  
continuing in the business after Mr.  
Clapp's retirement and consented to  
join with him in a sale of the entire  
stock holdings of the company.

The management of the local gas  
and electric plant by Mr. Clapp, dur-  
ing his 20 years of service here,  
stands out as a high tribute to his  
ability.

The plant has been vastly improv-  
ed and enlarged, the business has  
grown and expanded, new lines of  
public service have been added and  
withal the growth has been marked  
and healthy. The purchasers in  
their survey and audit of the plant  
pay a high tribute to the efficiency  
of the management and the condi-  
tion of the property and accepted it  
as a plant in first class condition.

On the whole, from the best infor-  
mation obtainable, Washington it  
seems, will fare well in the hands  
of the new owners in point of actual  
service and in possibilities of de-  
velopments.

The price paid is not made public.  
The sale, of course, carries the gas,  
electric and hot water heating  
plants.

It is likely, according to report,  
that when all details of transfer are  
closed up a resident director will be  
chosen. No disposition of the pre-  
ferred stock and the bonds of the  
company is made in the present  
transaction.

## 30,000 WORKERS ARE LOCKED OUT

By Associated Press Dispatch.  
New York, April 28.—Thirty  
thousand workers in women's cloak,  
suit and skirt manufactories here  
received notice today of the beginning  
of a lockout tonight affecting 409  
shops controlled by members of the  
Cloak, Suit & Skirt Manufacturers'  
Protective Association.

In retaliation the president of the  
International Ladies' Garment  
Workers' Union and officers of the  
eleven cloak makers' unions an-  
nounced that they will declare a  
strike, to become effective next  
Tuesday, involving not only the 30,  
000 affected by the lockout, but al-  
so 35,000 employees in 100 shops  
not called out by the manufactur-  
ers.

If this threat is put into effect  
about 65,000 makers of women's  
clothing will become idle, and the  
industry will be tied up as comple-  
tely as by the big strike of 1910.

## UGLY CHARGES

By Associated Press Dispatch.  
New York, April 28.—An in-  
vestigation was begun today at the  
office of the United States District  
Attorney to determine whether a  
crime had been committed by per-  
sons responsible for attacks on Pres-  
ident Wilson and the national Ad-  
ministration that have appeared in  
Irish-American papers published  
here since the outbreak of the revolu-  
tion in Dublin.

The attention of the federal auth-  
orities was first aroused by an edi-  
torial statement that information  
which led to the sinking of the Ger-  
man ship which attempted to land  
arms and ammunition on Irish soil,  
came from a member of the Wash-  
ington Administration "on the or-  
ders of President Wilson."

This declaration has been authori-  
tatively denied in Washington.

# WRONG TACTICS EMPLOYED BY YANKEES TO WIN TRADE

David Bentz, Back From 19 Years in South America, Gives Reasons Why So Many American Manufacturers Fail, and Why Yankees Are Decidedly Unpopular in South America—Opportunity Is There.

"Americans have little show of winning the bulk of, or even a large part of the South American business available, unless there is a radical change of attitude in the American manufacturer and salesman who seeks to sell American-made goods in South American countries."

This, in brief, is the opinion of Mr. David Bentz, of Lima, Peru, who has been associated with the mammoth Cerro de Pasco Mining Company, an American enterprise, in Peru, for the past dozen years, and who arrived in this city Thursday to spend a week with his mother, Mrs. Elizabeth Bentz, and brother, Mr. Louis Bentz, on East Paint street.

Mr. Bentz left this city while a mere youth, 19 years ago, and since that time has seen much of the world, particularly the southern part of the Western hemisphere, and is more or less familiar with conditions generally throughout the countries of South America. Since leaving here Mr. Bentz has been as far east as China, and as far south as Cape Horn.

For the past several years he has been in the employ of the Cerro de Pasco Mining company as conductor of one of that concern's trains, having a run of about 133 kilometers, and at an attractive salary, there being few Americans in Lima and Peru.

Mr. Bentz left Callao, the port for the city of Lima, on April 5th, aboard the steamer Huallaga, of the Peruvian Line, and stopped a couple of days at Panama, where he

boarded the steamer Callamares and reached New York Monday morning, April 24th, having made a short stop at Havana, Cuba. He will leave for the return trip sometime early in May.

Mr. Bentz stated that the Peruvians, as a whole, have little use for Americans, and regard them with more disfavor than nearly any other of the numerous nationalities of "gringos" who have been drawn to Peruvian soil by reports of the fabulous mineral riches and other resources, developed and undeveloped, in that country.

To the Peruvian, as well as to the average native of South American countries, Mr. Bentz states, Americans are too overbearing and too anxious for obtaining riches in the shortest time possible, regardless of what the South American thinks.

The average American does not trouble himself to learn the native tongues and mingle with the natives but holds himself aloof from the "common herd" which includes nearly all natives in general.

However, the Englishman, German, Frenchman and other nationalities, familiarize themselves with the native tongue, mingle with the natives, and live much the same as the natives, with the result that their goods are sold where buyers will not look at machinery and goods of American manufacture, or if they look, pass the American goods by and purchase that of the other "gringos," usually at a lower price than offered by the American concern.

Mr. Bentz argues that until the average Yankee seeking a liberal share of South American business, follows the lines observed by other nationalities, that there is no hope of turning any great volume of business toward the United States. He further states that European manufacturers pack their goods more securely than those shipped from America, with the result that American goods arrive in a badly damaged condition, while those of the other countries are usually in good condition when they arrive.

The opportunity is there, but the Yankees must change their tactics or fail to grasp the opportunity, says Mr. Bentz.

Emphasizing the opportunity afforded the United States manufacturer as a result of the war, Mr. Bentz points out the fact that European goods will not be produced as cheaply for a great many years to come as they have been for many years past, owing to the large number of skilled workmen who have perished in the war, and the demand for labor is sure to boost the price of labor, resulting in an increased price for the manufactured article, so that competition from United States manufacturers should not be as pronounced as before, owing to a more equal price between European and American-made goods.

## RESOLUTION

In grateful remembrance of our late Comrade, Milton Hyer, who answered the call of the Master, April 11th, 1916.

On receiving the word that Comrade Hyer had passed away during the night of above mentioned date, our hearts almost stood still for the moment. Could it be possible? Is it true? The answer comes back in truthful accents: "Yes, too true."

Our hearts are sad. We feel loath to give him up. But to our loving and beneficent heavenly Father, whose infinite right it is to pluck the sweetest and best flower that grows in the broad expanse of earth—his foot stool. We bow in humble submission to his will and say: "It is well. Thy will be done." And as in after years dear ones shall come to decorate the little mound under which rests the sleeping dust of our Comrade with flowers.

We hope the sweet odors of those flowers will be able to climb the morning sunbeams. And mingle with the fragrance of his deeds. Comrades, let us cherish his virtues and learn to imitate them.

And in the sudden going away of our dear Comrade Hyer, Be it resolved, that To B. H. Millikan Post No. 92, Department Ohio Grand Army of the Republic,—is added another vacant chair, and to its funeral corps—

Be it further resolved, That we have lost an important element in the rendition of its funeral ritual.

And be it further resolved, that a copy of these resolutions be given to the family in the late home of deceased, and a copy be kept with the files of The B. H. Millikan Post, G. A. R.

**Congressmen "Showered."**

Senators and representatives in the National Congress have been literally bombarded with thousands of letters and telegrams coming from all sections of the country beseeching them to work and vote to avoid a break with Germany.

Some senators and representatives received hundreds of telegrams each day. All are to the same effect and the same general form is used in all of the messages, indicating clearly that the great bulk of the messages are inspired by a strong organization and indicating also that there has been some considerable expense incurred to finance and carry out execution, the plans of the organization.

There are some indications that a congressional investigation may be conducted with a view to determining just who is back of the organized propaganda.

Such an investigation might, if conducted fearlessly, result in good. It may be possible that the organization has plans and purposes more extensive and more vicious than appears from the mere sending of the "form" telegrams and letters.

The present shower of messages to which members of congress are being subjected is an exaggerated instance of the evils of a very foolish practice which the people of the United States have been too willing to indulge in.

While there may be no harm follow in this particular instance and while none may be intended, it serves very clearly to demonstrate how persons inclined to do evil may heckle and annoy public servants, intimidating them to such a degree as to prevent them from a free and frank discharge of their duties.

When impulse moves the individual to express his desires to his representative in congress no harm can come, but for people to follow blindly the request of "organizers" and forward form requests by the thousands is a dangerous as well as an annoying practice.

**The Dublin Revolt**

Just how serious the riots in Dublin may prove is problematical. The same amount of violent disturbances in times of peace would excite much more widespread concern than it does now. Great Britain is better able right at this time to cope with the outbreaks than it would be in peace times.

There seems no doubt that the rioting was inspired by outside influences and, thus far, there is nothing to justify the belief that there is any widespread dissatisfaction among the leading Irish people.

England's rule in the Emerald Isle has never been popular with Irish people but be that as it may they are loyal and patriotic. No matter what internal troubles disturb them the Irish people have always responded to the call of the United Kingdom in times of attack by outsiders.

Ireland's quarrel with England over "home rule" and hundred issues is pronounced and never ending, but it is not likely the Irish people will choose a time when the United Kingdom is in peril, to press for a conclusion of the family difficulties.

While the uprisings in Dublin are, of course, a matter of concern, yet it is likely that when the whole matter is finally lifted to the bottom it will be found to embrace few indeed of the leaders among the sons of Erin.

**Newspaper Shortage**

How serious the advanced and advancing cost of news print paper is becoming is demonstrated by the fact that the Pennsylvania State Editorial Association, at a meeting in Philadelphia on Wednesday, adopted a resolution to increase the price of all one cent papers to two cents.

Not only in the price of news print paper has the advance in cost become a menace to the financial safety of the publishers. The prices of all inks, and all metals, lead, brass and copper, have advanced tremendously. The price of labor too has advanced because of the increase in cost of all necessities of life.

Almost every item of cost which enters into the construction of the newspaper has increased to such an extent as to make a readjustment of the publishing business to meet present conditions almost imperative.

Not only are present conditions and prices such as to cause serious concern, but the end of the advance in prices is not yet in sight.

Each day the demand for an investigation into industrial conditions with a view to determining what, if any, proportion of the cost price advance, is due to manipulation of those who exert great control over the market of the commodities affected.

In the meantime waiting and hoping for an investigation which will bring relief from the uncertainty as to cause, even if it does not stay the advance in price, publishers everywhere are advising each other and people generally to practice the most rigid economy. Everything that can be worked over should be preserved and nothing except that which is absolutely worthless and a menace to health, consigned to the flames.

Just as in summer when the day is sweet  
And all the grass is green around our feet,  
A little spot of green in life makes glad  
The downcast spirits and the hearts grown sad—  
A breath of fresh believing in this life  
That meets us all with troubling and with strife.  
You know how fine and high and bright you feel  
When springtime morning through your window peeps,  
And how you rise with muscles taut as steel  
To greet the beauty that upon you creeps—  
Well, so it is that life grows happier when  
A little spot of green comes back again.  
O, sad and brown and dreary were the way  
Without some spot of green to cheer the day,  
And twinkling eyes and smiling lips are just  
The things to lift us from our dreams of dust,  
To bless and charm us, as some green field yonder  
In which the children of the spring-time wander.  
Unto the winter of our sorrowing care  
Love brings a spot of green for us to wear,  
And in that light and joy and cheer of love  
We turn our eyes to heavens that burn above  
With happier light than maybe we have known,  
And so in it the clouds and tears have flown.

**IT'S POSSIBLE**  
(By American Press)

New York, April 28.—The extreme anxiety of both miners and operators to avoid a break at the anthracite coal conference that would lead to a strike was evinced as soon as the meeting was called together in the Engineering Societies building. As a result of the conciliatory attitude of each side it seems as though the difficulties may be patched up. The situation was strained at the beginning of the conference, and it seemed as if a break could not be avoided, the rock on which the operators and miners split being recognition of the union. Finally it was agreed that the questions under discussion be referred back to the subcommittee of the general conference committee and the miners and operators separated to talk it over.

**PORT OF HEALTH  
HAS BEEN FOUND**

The Discovery of Tanlac Has Made This Possible.

A sea captain would never let his ship leave port without an anchor. He realizes that without something to hold his ship in control in cases of emergencies the craft would be left to the mercy of the angry sea.

In the same way an individual should guard himself against the ravages of diseases that have become so common in this country. Without something to aid nature in combating these ills—stomach, liver kidneys and catarrhal disorders, the individual is lost. Thousands have sailed happily into the port of Health on the good ship Tanlac. Tanlac, the new constructive tonic, has been a life-saver to suffering humanity.

The world is full of people with blighted lives — blighted through the modern mode of living in irregularity and excesses. Tanlac is changing the natural consequences of wrong living for its users and is giving renewed health and strength to those many who have sought to regain the wealth they have thrown away—Health.

Run-down, nervous and half-sick people should give their bodies a chance and take a tonic, appetizer and invigorant that will build up the tissues and restore the stomach to a normal working order. Tanlac will do this and more. Tanlac restores lost appetite, brings good restful sleep, banishes that nervous, all-gone feeling, vitalizes the blood and gives the entire system a tonying up. To those who suffer the misery of a worn-out system, those who lack appetite, who fear to eat the things that they like, and heed the pains of an enfeebled stomach—Tanlac is a boon.

Tanlac is now being especially introduced in Washington C. H. at Blackmer & Tanquary's where the Tanlac Man daily explains its merits and what may be expected from its use.

Tanlac may be obtained in the following nearby towns, Sabina, J. J. Spurgeon; Wilmington, Harry Christopher; Jeffersonville, J. B. Davis; Jamestown, W. F. Harper; Greenfield, Harry Christopher; Bainbridge, A. W. Fetter; Anderson, C. A. Graves; Chillicothe, Mueler Pharmacy; Leesburg, Chas. W. Feller; New Vienna, W. C. Higley; Austin, William M. Near; Bowersville, C. E. Gardner; Bloomingburg, I. Y. Stitt.

Greenfield Elks, the royal good time and elaborate banquet given to them.

The Washington team put on the work, which drew enthusiastic approval from the Antlered Herd. The team was composed of Clark Gossard, C. A. Gossard, R. R. Kibler, C. H. Griffith and Wm. Turner.

About forty Elks from the Washington lodge motored over.

## MIDNIGHT FIRE; SHED IS DESTROYED

A shed owned by a Mr. Cober, on Delaware street, was destroyed by fire at midnight, Thursday, the shed being doomed when the alarm was turned in.

The fire department responded to the call and the motor truck stuck in the mud at the intersection of Delaware and Rawlings streets, so that it was necessary to lay about 400 feet of hose.

The fire was extinguished and the department was back in the engine house within a half hour, extricating the motor truck with little difficulty. It is not known how the fire originated.

#### WHY MEDITATE

We know it's hard for a man to make up his mind just where to buy a suit and one that will please him—

But—why mediate—when you can put it up to us to select the suit that will fit you, and one you'll look best in.

We're the ones to worry about pleasing you—but we're not worried, and if you knew what a dandy stock of New Spring Suits we have here, you wouldn't wonder at our confidence.

The new two button sack makes an ideal business suit.

Lots of men make it a point to select their suits just as soon as they learn our stocks are complete—and there are lots of reasons for doing this, too—we'll tell you of them if you say so.

Prices begin at \$10.00 and rise by easy stages to \$25.00.

#### Here Are Suits at \$25.00

Possessing an Unusual Amount of Style and Value

This is going to be a rather unusual season—several reasons will make it so. The manufacturers are making serious complaint that they cannot get cloths to make up the garments and the scarcity of dyes has increased the cost of fabrics as well, making it difficult to secure fabrics of certain colors. In view of these conditions—these Suits at \$25.00 ought to be very interesting to any woman.

One model made of Blue Taffeta Silk, has the new ripple cape collar coat with three silk frogs on the front semi-fitted, correct length, edged with blue velvet ribbon; the skirt is make along the new lines—hangs gracefully.

Other Suits at \$25.00 are made of serge, gabardines, shepherd checks—in fact, checks of various sizes—and every one of them in a striking, stunning style.

OTHER SUITS AT \$15.00 TO \$40.00.

#### A Dressy Spring Dress at \$12.50

Quite a number of women feel they would like to have at least one of their spring dresses made in a style that will be dressy as well as adaptable for use for street wear. So this dress made of sheer silk crepe, trimmed with effective hand embroidering in one of the best styles of the season will surely appeal to you. Other dresses of silks and other fabrics, \$10 to \$25

#### Silk Petticoats \$3.50

With taffeta silks at their present price level, this special value in a silk petticoat is a value extraordinary. The silk used is of good wearing taffeta—can be had in black, white, light blue, pink and light green—as a matter of fact the variety of colors is broad enough for you to select a petticoat to wear with most any dress or suit you have. Only a limited quantity. Better make your selections early.

Tomorrow is the last day of Miss Maude Ball's Demonstration of Frolacet Corsets. If you have not taken the time to visit Miss Ball, do so tomorrow.

#### MILLINERY

AN AFTER EASTER SALE OF MILLINERY IS IN PROGRESS NOW

If you are not the possessor of a New Spring Hat, this presents an admirable opportunity to buy one early in the season at a very modest price.

#### If You've Been Thinking of New Footwear—

—then the question of a new pair of pumps is in order.

There are many other questions that might come to mind if you were thinking of new footwear—three stand out very prominently—STYLE, FIT, PRICE.

That the STYLES shown are unquestionably correct is emphasized by the fact these new pumps are exact duplicates of footwear styles selling to \$10 a pair.

Whatever else is taken into consideration, FIT is a very important element in relation to the sure satisfaction you are to secure from any shoe. We've made a study of fitting correctly.

And, now, PRICE—the price of these pumps is \$3.50 a pair. Made of kidskin—including black.

Then, there are two models of High Shoes made of kidskin in ivory gray and white at \$8.00 a pair that are beauties!

#### The New Neckwear—25c TO \$1.50

New Shapes abound. Any of the new neckwear will so greatly improve the looks of your suit you might want to wear it longer than you had planned. We've a special group of collars at 50c, made of sheer lawn, marquisettes and georgette crepes. The collars are in all white, or white with dainty color combinations. Wish we had space to say more.

#### Washable Cape Gloves \$1.25 A Pair

Washable cape gloves have made a hit with women. One woman remarked the other day that she was now able to cut her glove bill down to almost half. These cape gloves at \$1.25 are made by a well known maker—pique sewn, embroidered backs, and can be had in various colors such as will be worn this season. We can't guarantee to get so good a quality later at the price.

## A Story of Mountain Railroad Life

### By FRANK H. SPEARMAN

AUTHOR OF "WHISPERING SMITH," "THE MOUNTAIN DIVIDE," "STRATEGY OF GREAT RAILROADS," ETC.

NOVELIZED FROM THE MOVING PICTURE PLAY OF THE SAME NAME. PRODUCED BY THE SIGNAL FILM CORPORATION. COPYRIGHT, 1915, BY FRANK H. SPEARMAN.

#### SYNOPSIS.

Little Helen Holmes, daughter of General Holmes, railroad man, is rescued from imminent danger on a scenic railroad by George Storm, a newsboy. Grown to young womanhood, Helen saves Storm, now a fireman, her father, and his friends. Amos Rhinelander, financier, and Robert Seagrue, promoter, from a threatened collision. Safebreakers employed by Seagrue steal General Holmes' survey plans of the cut off line for the Tidewater. Helen saves the general and escape. Her father's estate badly involved by his death, Helen goes to work on the Tidewater. Helen recovers the survey plans from Seagrue, and though they are taken from her, finds an accidentally made proof of the survey blueprint. Storm is employed by Rhinelander. Spike, befriended by Helen, in his turn saves her and the right-of-way contracts when Seagrue kidnaps her. Helen and Storm win for Rhinelander a race against Seagrue for right-of-way. Helen, Storm and Rhinelander rescue Spike from Seagrue's men. Spike steals records to protect Rhinelander, and Storm and Helen save Spike from death in the burning court house. Vein in operation mine pinches out. Seagrue salts it and sells it to Rhinelander.

(Continued from Yesterday's Herald)

The men began. The moment the blast was ready, it was set off and they were back again at their drills preparing for the next. Working thus with frenzied energy, they tore great holes into the tunnel's side, but seemingly with no hopeful result. And the work was beginning to tell on them. By the time they had gotten what they hoped might be the final shot ready Rhinelander and the miners—all in the tunnel except Storm—were on the verge of collapse.

Nerved to a final effort by the hope of life, the shot was fired. No ray of daylight greeted their straining eyes as the smoke thinned away. The air, now foul, had so overcome them that few could crawl forward to examine the shattered wall. One grizzled fellow, sturdier than his mates, staggered to it. He looked for a moment at the rock and cried out. Animated by fresh hope, the exhausted men responded by dragging themselves to him.

The blast had not given them the hoped-for avenue of escape. But broadly lined across the jagged surface now dislodged, they saw staring at them as if in mockery of their state, the lost vein, the lead of precious quartz again before them. Untold riches confronted them.

Seagrue, in his room, had heard the distant report of the explosion, but he had been drinking of late and his nerves were on edge.

He strode up and down the room revolving in his mind the situation of the men imprisoned within the big tunnel. He knew enough of the mine to understand perfectly the peril of their position and the necessity of a quick rescue if their lives were to be saved. Further than this, he charged his mind with nothing of responsibility; indeed, he would hardly have walked across the street to save one of the imperiled men. Yet, a strangely persistent curiosity moved him to want to know more of the fate of those who were thus struggling for their lives.

A decanter stood on the buffet and he turned to it. While he poured brandy into a glass, he heard a strange noise in an adjoining room—a sound as if of a miner's doublejack. It startled him unpleasantly. He called to his servant and the man, thus abruptly summoned, came quickly, carrying an ice pick.

"What's that noise? What are you doing?" demanded Seagrue harshly.

## YOUTH IN OLD AGE

#### How to Live to be One Hundred Years Old.

With proper attention to diet, prevention of colds, exercise, plenty of sleep, proper care of the skin and the use of a strengthening tonic like Vinol, years may be added to one's life.

A Civil War Veteran, Mr. W. H. Bowers, of Steubenville, Ohio, says: "I am 77 years of age. I suffered from general weakness, nervous break-down and dizziness. An old doctor recommended Vinol. It built me up so that I was able to go to work as strong and well as ever."

The reason Vinol is so beneficial to old people is because it contains the very elements needed to replace declining strength with renewed vigor, viz—the medicinal elements of fresh cod livers, without oil, peptonate of iron, beef peptonate and a mild tonic wine.

If Vinol fails to build up the feeble weakened system of old people, we will return the amount of money paid us for it. Blackmer & Tanquary. Advt.

of War will make to the apparent intention of the Washington government to maintain General Pershing's columns in Chihuahua until such time as General Carranza's forces have proved their ability to wipe out the bandit menace.

It is pointed out, however, that it is unlikely he will take any action that would precipitate a break with the United States, since intervention is said to be the last eventuality desired by the Carranza adherents.

After a conference with military and civil authorities in the customs house, General Obregon told newspapermen he did not care to talk about the conference.

"Do you think Villa is dead?" "I do not," was the quick reply. "But I am positive he is wounded and suffers for lack of medical attention, and therefore has small chance to be personally active again in any campaign."

## MOVING

By Associated Press Dispatch.  
Field Headquarters, Namiquipa, April 28.—Numbers of Carranza troops which had been withdrawn returned today to points in the field south of Guerrero.

The ostensible purpose of this new movement, it was said, was to prevent a combination of the adherents of Carranza and Villa factions against the Americans.

## FLEEING

By Associated Press Dispatch.  
Columbus, N. M., April 28.—Villa's scattered adherents are gradually being pushed to the wall, according to reports here today.

These reports said that the remnants of the Villa army are fleeing for cover—the morale broken, the men half starved and almost physical wrecks.

So far as is known here, only two bands of any size remain under the Villa standard, one somewhere on the Durango-Chihuahua border and another in the mountains east of Guerrero.

The rest of the command that attacked Columbus is said to have scattered, singly and in groups of two or three, some to be captured by General Pershing's soldiers and others to return to their homes.

## 736 VESSELS ARE DESTROYED

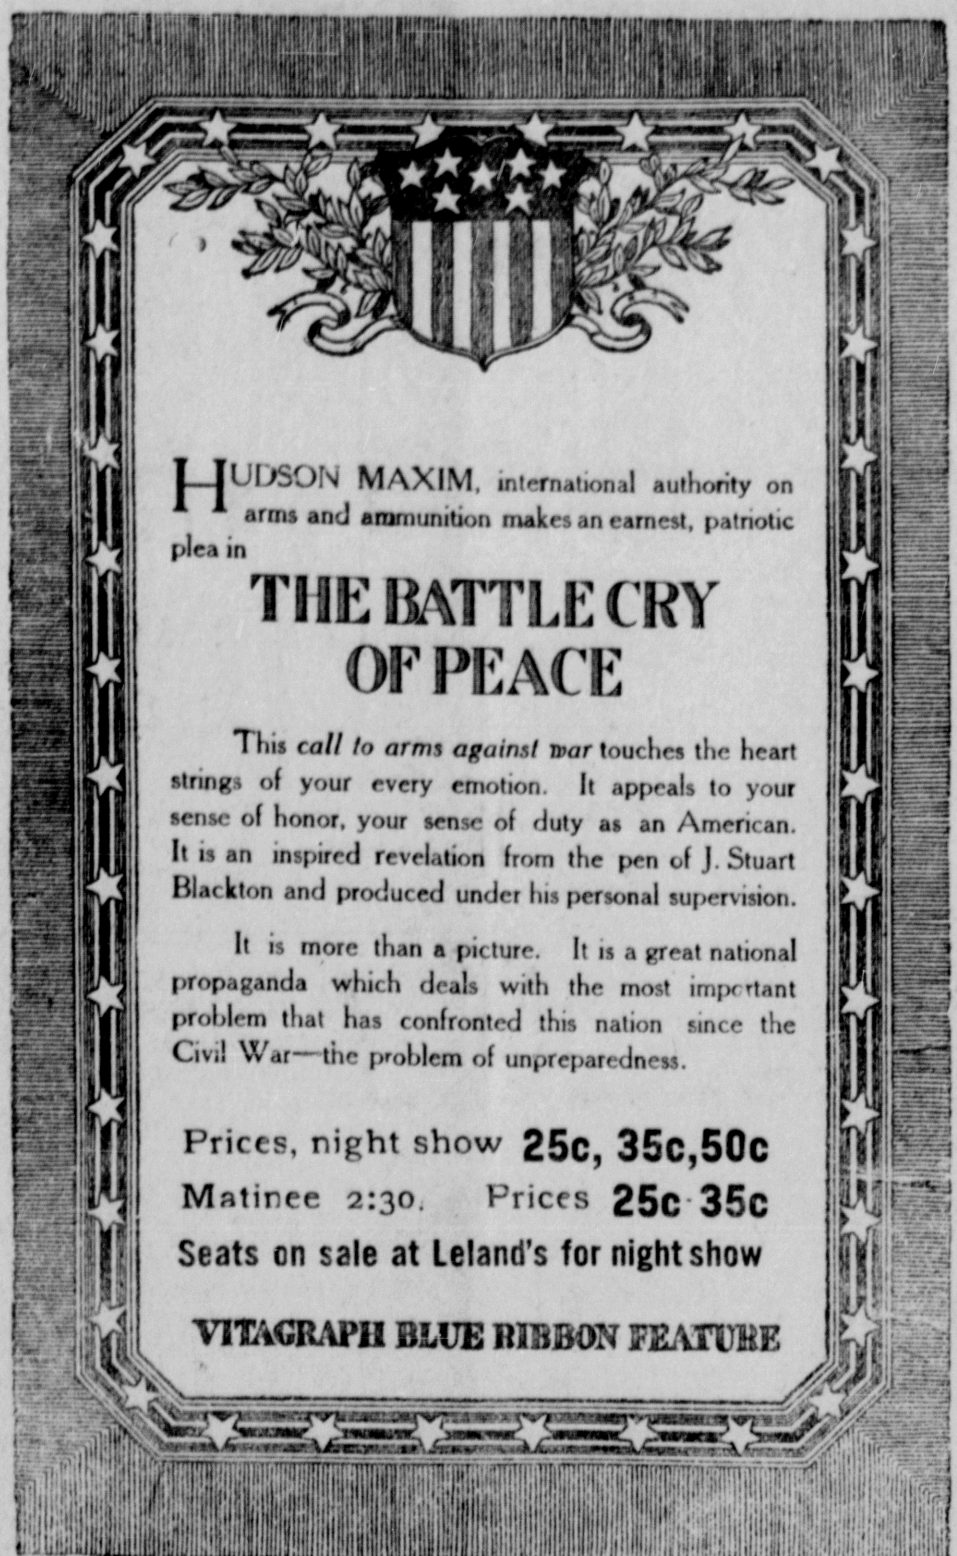

By Associated Press Dispatch.  
Washington, April 28.—British estimates of the European war toll of merchant ships, given today by the Department of Commerce, puts the number at 736, with a tonnage of more than 2,000,000. Allies' vessels lost, 538; neutrals, 190.

The estimates, made by a British admiral, gave British losses as 410; France, 53; Russian, 35; Italian, 27; Belgian, 10; Japanese, 3.

## ARGENTINA SELLS SHIPS

(Associated Press Cable)  
Buenos Aires, April 28.—The complete dissolution of the Argentine mercantile marine appears to be fast approaching as a result, primarily, of the European war.

Before the conflict in Europe began there were a number of indications that attempts to create and maintain a national mercantile marine representing the Argentine republic might be successful, notwithstanding that the efforts were handicapped by a number of factors. Onerous and vexatious laws and regulations are in force, among them a law that requires that every captain or commander of an Argentine vessel, must be an Argentine. One third of the crew must be Argentinians.

Notwithstanding that the Spanish race has always been notable for number and merits of its navigators, the Argentine descendants of that race show no marked liking for the sailor's life. As a result, there are on record many cases of owners of vessels searching for weeks for properly qualified officers and men for an Argentine ship. In a way the law was circumvented by naturalizing Spaniards, Greeks and Italians, but even this expedient was not always successful.

Many European nations are now paying so high for tonnage that the Argentine owners of vessels, glad to escape the vexatious handicaps, are selling out to the European buyers, or to Uruguayan and Chilean companies, which have less trouble to

contend with. In addition, to this lure of gold, the lack of coal, which has already been referred to in previous dispatches as serious, has been a factor in the disintegration of the Argentine merchant fleet.

## LIME CORRECTS SOIL ACIDITY

"All the soils in Ohio will eventually become acid unless lime is applied to correct the toxic substances formed by the decaying vegetation, the disintegration of minerals and the leaching of water," says M. A. Bachtell, soil expert of the Agricultural Extension Service Ohio State University. Even in the limestone regions the top layers of soil have been found to be acid even though the lime rock is but a few feet under the soil. All the soils east of a line drawn from Sandusky thru Columbus to the Ohio River have but little limestone in them because the underlying rock is generally sandstone or shale. West of this line the soils were partly formed by the disintegration of limestone rock and are fairly well supplied with lime. Constant cultivation and cropping, disintegration of the soil and leaching has slowly developed the acid tendency. Two or three tons of ground limestone applied every 4 years, however, correct all acidity. —O. S. U. Bulletin.

Mexican Minister of  
War Arrives at  
Juarez on Special  
Train—Ready to  
Present Arguments  
for Withdrawal of  
United States  
Troops.

Associated Press Dispatch.  
COLUMBUS, N. M., APRIL 28.—  
MARCHING ORDERS WERE RE-  
CEIVED TODAY BY APPROXI-  
MATELY ONE HALF OF THE  
NUMBER OF SOLDIERS ON STA-  
TION HERE.

THESE TROOPS, LARGELY CAV-  
ALRY, WILL PROBABLY CROSS  
THE BORDER TO REINFORCE  
GENERAL JOHN J. PERSHING  
LATE THIS AFTERNOON.

IT IS BELIEVED THE TROOPS  
WILL BE STATIONED ALONG  
THE AMERICAN LINE OF COM-  
MUNICATION, EXTENDING FROM  
COLUMBUS TO SAN ANTONIO,  
CHIHUAHUA, ABOUT 325 MILES  
SOUTH OF THE FRONTIER.

Associated Press Dispatch.  
El Paso, Texas, April 28.—Gen-  
eral Obregon, Minister of War of  
the Mexican de facto government, is  
in Juarez today, waiting to confer  
with Major Generals Scott and Fun-  
ston on the military questions that  
are involved in the American puni-  
tive expedition into Mexico.

General Obregon reached Juarez  
on a special train this morning.  
The protective presence in north-  
western Mexico of 40,000 Carranza  
troops will be the most potent argu-  
ment brought to the border today  
by General Obregon in his effort to  
convince the American generals  
that the expeditionary force should  
be withdrawn from Mexican soil.

Mexican officials here believe he  
will assure the Americans that,  
even the last United States troops  
have crossed to the north of the in-  
ternational boundary, the de facto  
army will form behind them a line  
of patrols that will render future  
raid raids on the border impos-  
sible.

Added to this, they say he will  
repeat the declaration he made in  
Chihuahua City that the chiefs of  
the Constitutionalist cause are in  
perfect harmony and amply able to  
control the small bands of bandits  
all at large.

There is no indication here as to  
what answer the Mexican Minister

## BRITISH BATTLESHIP IS SUNK

Of the 800 Men on  
Board the Russell  
124 Are Missing.

German Sub Sent to  
Bottom Off the  
English East Coast  
—Crew of Eigh-  
teen Captured.

(Associated Press Cable)

London, April 28.—Naval events  
are again to the front in the war  
news, with today's announcement  
that the British battleship Russell  
has been sunk in the Mediterranean  
by striking a mine, and that a Ger-  
man submarine has been sent to the  
bottom by the British off the English  
east coast.

There were more than 800 men on  
board the Russell and about 124 are  
missing. Eighteen men on the Ger-  
man submarine were captured.

The Russell was comparatively an  
old vessel. She displaced 14,000  
tons. She is the eleventh British  
battleship to be lost during the war.

Another contingent of Russian  
troops has reached Marseilles for  
service on the western front.

This makes the third contingent  
whose arrival the French military  
authorities have permitted to be re-  
ported.

As in previous instances, the  
strength of the contingent is with-  
held; but news dispatches from Mar-  
seilles have indicated a belief that  
as many as 250,000 Russian troops  
would probably be transferred this  
spring to the Franco-Belgian front.

For the first time in many days,  
the French official statement men-  
tions no notable activity, even by  
the artillery, in the Verdun region.

German efforts, for the present,  
seem to be directed against the Brit-  
ish along the line in northern  
France and Belgium, where London  
last night reported activity that  
seemed to observers there to indi-  
cate that the Germans might be  
about to launch an offensive as de-  
termined as that directed against  
Verdun.

Ambassador Gerard left Berlin last  
night for German army headquar-  
ters, where he will have an audi-  
ence with Emperor William, who,  
with his advisers, is considering the  
reply to the American note on sub-  
marine warfare.

were arrested because they endeav-  
ored to organize street railway em-

## WHOLESALE GRAB IS TO BE MADE

By Associated Press Dispatch.

New York, April 28.—A number  
of arrests are expected here soon in  
a police campaign to break up gangs  
of blackmailers who have been prey-  
ing upon wealthy visitors.

The typical blackmailing gang is  
described as including two men and  
two women.

The favorite scheme, the police  
say, has been to induce victims to  
give up money to escape threatened  
prosecution under the White Slave  
law.

## HOPEFUL

mands for the immediate abandon-  
ment of its present practices in sub-  
marine warfare.

advised whether the suggestions he  
recently made to his government at  
the invitation of the Foreign Office  
have been adopted.

He expects further advices.

## SWISS, TOO

By Associated Press Dispatch.

Berne, Switzerland, April 28.—  
The flight of a German aeroplane  
over Swiss territory in the region  
of Porentruy yesterday morning, oc-  
curring so soon after a previous sim-  
ilar flight over the same territory,  
has provoked the strongest indig-  
nance in Switzerland.

This is reflected in all sections of  
the press.

The semi-official Bund says the  
time has come to demand from Ger-  
many something more than explana-  
tions of regret or excuses.

Big Deal.

Are Acquiring "A  
Chain" of Public  
Utilities Properties  
—May Mean Big  
Developments in  
Future for City.

Local Interests for  
the First Time  
Since the Organi-  
zation of the In-  
itial Company in  
'75 Are No Longer  
Owners of Com-  
mon Stock.

One of the largest business trans-  
actions ever consummated in finan-  
cial or industrial circles of Wash-  
ington is being finally and formally  
closed up. Only the details remain.

As a result of the deal the entire  
ownership of The Washington Gas  
& Electric Company, which since the  
organization of the initial company,  
in 1875, has been either wholly or  
partially in control of local people,  
passes to foreign interests.

The negotiations for the purchase  
of the plant were begun some six or  
seven months ago and the prelimi-  
nary steps looking to the final acqui-  
sition of the company were taken  
several months ago.

The purchasers are H. A. Baher &  
Company of Chicago, a firm which  
has already acquired and has pend-  
ing negotiations to acquire a num-  
ber of other public utility plants  
similar to the local plant.

Mr. Baher is the practical man of  
the organization and is recognized  
all over the nation as one of the  
most expert managers of public uti-  
lities concerns now in active busi-  
ness. It is the purpose of the pur-  
chasers to operate a chain of these  
companies—following out the later  
day business methods of increasing  
the volume of business and thus de-  
creasing the cost of production.

The financial power back of the  
purchasers is generally understood  
to be the Studebaker in-  
terests, and the strength of  
that interest is a guar-  
antee that the new owners will have  
an abundance of capital for opera-  
tion and development.

It will be seen at a glance that  
the deal just consummated "hooks  
up" Washington with a great finan-  
cial power seeking an investment for  
money and it may be the beginning  
of big developments in the way of  
traction line building or other pub-  
lic utility development.

It is understood that Mr. G. N.  
Clapp, of Middletown, who has been  
with the local company as manager  
for the last twenty years, will re-  
main in the capacity of vice-presi-  
dent of the new organization for a  
few months in order to assist them  
in getting hold of the local busi-  
ness.

The present working force and  
employees will not be replaced, ac-  
cording to the best information ob-  
tainable.

At a meeting held in this city

## POINCARE VISITS THE VERDUN TRENCHES

M. Poincaré, president of France, accompanied by officers, on a visit to the trenches in the Meuse district. M. Poincaré is attired in a military cloak and cap of a color not easily discernible from the enemy's trenches.

Thursday afternoon the old direc-  
tors of the company, H. B. Dahl, D.  
S. Craig, Jess W. Smith, G. N. Clapp  
and Mr. Isenminger—having dispos-  
ed of their stock holdings, tendered  
their resignations.

At a meeting to be held tomorrow  
in Middletown new directors will be  
chosen.

The transfer of the business, be-  
ing confined exclusively to a sale of  
the common stock, is accomplished  
with no confusion or disturbance to  
business.

The reason underlying the sale by  
local capitalists is the disinclination  
of Mr. Clapp to remain longer in  
an active managerial capacity. For  
some time Mr. Clapp has not been  
enjoying the best of health and he  
felt that to remain longer in active  
business would be inadvisable. The  
local stockholders were averse to  
continuing in the business after Mr.  
Clapp's retirement and consented to  
join with him in a sale of the entire  
stock holdings of the company.

The management of the local gas  
and electric plant by Mr. Clapp, dur-  
ing his 20 years of service here,  
stands out as a high tribute to his  
ability.

The plant has been vastly improv-  
ed and enlarged, the business has  
grown and expanded, new lines of  
public service have been added and  
withal the growth has been marked  
and healthy. The purchasers in  
their survey and audit of the plant  
pay a high tribute to the efficiency  
of the management and the condi-  
tion of the property and accepted  
it as a plant in first class condition.

On the whole, from the best infor-  
mation obtainable, Washington it  
seems, will fare well in the hands  
of the new owners in point of actual  
service and in possibilities of de-  
velopment.

The price paid is not made public.  
The sale, of course, carries the gas,  
electric and hot water heating  
plants.

It is likely, according to report,  
that when all details of transfer are  
closed up a resident director will be  
chosen. No disposition of the pre-  
ferred stock and the bonds of the  
company is made in the present  
transaction.

## 30,000 WORKERS ARE LOCKED OUT

By Associated Press Dispatch.

New York, April 28.—Thirty  
thousand workers in women's cloak,  
suit and skirt manufactories here re-  
ceived notice today of the beginning  
of a lockout tonight affecting 469  
shops controlled by members of the  
Cloak, Suit & Skirt Manufacturers'  
Protective Association.

In retaliation the president of the  
International Ladies' Garment  
Workers' Union and officers of the  
eleven cloak makers' unions an-  
nounced that they will declare a  
strike, to become effective next  
Tuesday, involving not only the 30,-  
000 affected by the lockout, but al-  
so 35,000 employees in 100 shops  
not called out by the manufactur-  
ers.

If this threat is put into effect  
about 65,000 makers of women's  
clothing will become idle, and the  
industry will be tied up as comple-  
tely as by the big strike of 1910.

## UGLY CHARGES

By Associated Press Dispatch.

New York, April 28.—An inves-  
tigation was begun today at the of-  
fice of the United States District At-  
torney to determine whether a  
crime had been committed by per-  
sons responsible for attacks on Pres-  
ident Wilson and the national Ad-  
ministration that have appeared in  
Irish-American papers published  
here since the outbreak of the revolu-  
tion in Dublin.

The attention of the federal auth-  
orities was first aroused by an edi-  
torial statement that information  
which led to the sinking of the Ger-  
man ship which attempted to land  
arms and ammunition on Irish soil,  
came from a member of the Wash-  
ington Administration "on the or-  
ders of President Wilson."

This declaration has been authori-  
tatively denied in Washington.

# WRONG TACTICS EMPLOYED BY YANKEES TO WIN TRADE

David Bentz, Back From 19 Years  
in South America, Gives Reasons  
Why So Many American  
Manufacturers Fail, and Why  
Yankees Are Decidedly Un-  
popular in South America—  
Opportunity Is There.

"Americans have little show of winning the bulk of, or even a large part of the South American business available, unless there is a radical change of attitude in the American manufacturer and salesman who seeks to sell American-made goods in South American countries."

This, in brief, is the opinion of Mr. David Bentz, of Lima, Peru, who has been associated with the mammoth Cerro de Pasco Mining Company, an American enterprise, in Peru, for the past dozen years, and who arrived in this city Thursday to spend a week with his mother, Mrs. Elizabeth Bentz, and brother, Mr. Louis Bentz, on East Paint street.

Mr. Bentz left this city while a mere youth, 19 years ago, and since that time has seen much of the world, particularly the southern part of the Western hemisphere, and is more or less familiar with conditions generally throughout the countries of South America. Since leaving here Mr. Bentz has been as far east as China, and as far south as Cape Horn.

For the past several years he has been in the employ of the Cerro de Pasco Mining company as conductor of one of that concern's trains, having a run of about 133 kilometers, and at an attractive salary, there being few Americans in Lima and Peru.

Mr. Bentz left Callao, the port for the city of Lima, on April 5th, aboard the steamer Huallaga, of the Peruvian Line, and stopped a couple of days at Panama, where he

boarded the steamer Callamare and reached New York Monday morning, April 24th, having made a short stop at Havana, Cuba. He will leave for the return trip sometime early in May.

Mr. Bentz stated that the Peruvians, as a whole, have little use for Americans, and regard them with more disfavor than nearly any other of the numerous nationalities of "gringos" who have been drawn to Peruvian soil by reports of the fabulous mineral riches and other resources, developed and undeveloped, in that country.

To the Peruvian, as well as to the average native of South American countries, Mr. Bentz states, Americans are too overbearing and too anxious for obtaining riches in the shortest time possible, regardless of what the South American thinks.

The average American does not trouble himself to learn the native tongues and mingle with the natives but holds himself aloof from the "common herd" which includes nearly all natives in general.

However, the Englishman, German, Frenchman and other nationalities, familiarize themselves with the native tongue, mingle with the natives, and live much the same as the natives, with the result that their goods are sold where buyers will not look at machinery and goods of American manufacture, or if they look, pass the American goods by and purchase that of the other "gringos," usually at a lower price than offered by the American concern.

Mr. Bentz argues that until the average Yankee seeking a liberal share of South American business, follows the lines observed by other nationalities, that there is no hope of turning any great volume of business toward the United States. He further states that European manufacturers pack their goods more securely than those shipped from America, with the result that American goods arrive in a badly damaged condition, while those of the other countries are usually in good condition when they arrive.

The opportunity is there, but the Yankees must change their tactics or fail to grasp the opportunity, says Mr. Bentz.

Emphasizing the opportunity afforded the United States manufacturer as a result of the war, Mr. Bentz points out the fact that European goods will not be produced as cheaply for a great many years to come as they have been for many years past, owing to the large number of skilled workmen who have perished in the war, and the demand for labor is sure to boost the price of labor, resulting in an increased price for the manufactured article, so that competition from United States manufacturers should not be as pronounced as before, owing to a more equal price between European and American-made goods.

## RESOLUTION

In grateful remembrance of our late Comrade, Milton Hyer, who answered the call of the Master, April 11th, 1916.

On receiving the word that Comrade Hyer had passed away during the night of above mentioned date, our hearts almost stood still for the moment. Could it be possible? Is it true? The answer comes back in truthful accents: "Yes, too true."

Our hearts are sad. We feel loath to give him up. But to our loving and beneficent heavenly Father, whose infinite right it is to pluck the sweetest and best flower that grows in the broad expanse of earth—his foot stool, We bow in humble submission to his will and say: "It is well. Thy will be done." And as in after years dear ones shall come to decorate the little mound under which rests the sleeping dust of our Comrade with flowers.

We hope the sweet odors of those flowers will be able to climb the morning sunbeams. And mingle with the fragrance of his deeds. Comrades, let us cherish his virtues and learn to imitate them.

And in the sudden going away of our dear Comrade Hyer,

Be it resolved, that To B. H. Millikan Post No. 92, Department Ohio Grand Army of the Republic,—is added another vacant chair, and to its funeral corps—

Be it further resolved, That we have lost an important element in the rendition of its funeral ritual.

And be it further resolved, that a copy of these resolutions be given to the family in the late home of deceased, and a copy be kept with the files of The B. H. Millikan Post, G. A. R.

## FORMER LOCAL WOMAN CASTS FIRST BALLOT

Mrs. Fred Wyman, formerly Miss Anna Connor, of this city, now of Clyde Park, Montana, cast her first vote at a primary election held in Montana a few days ago, exercising the same right of franchise as possessed by men of Montana.

Mrs. Wyman will visit relatives in this city this summer, arriving in June, but expects to reach home in time to cast her vote for president and other candidates for office.

Congressmen "Showered."

Senators and representatives in the National Congress have been literally bombarded with thousands of letters and telegrams coming from all sections of the country beseeching them to work and vote to avoid a break with Germany.

Some senators and representatives received hundreds of telegrams each day. All are to the same effect and the same general form is used in all of the messages, indicating clearly that the great bulk of the messages are inspired by a strong organization and indicating also that there has been some considerable expense incurred to finance and carry out execution, the plans of the organization.

There are some indications that a congressional investigation may be conducted with a view to determining just who is back of the organized propaganda.

Such an investigation might, if conducted fearlessly, result in good. It may be possible that the organization has plans and purposes more extensive and more vicious than appears from the mere sending of the "form" telegrams and letters.

The present shower of messages to which members of congress are being subjected is an exaggerated instance of the evils of a very foolish practice which the people of the United States have been too willing to indulge in.

While there may be no harm follow in this particular instance and while none may be intended, it serves very clearly to demonstrate how persons inclined to do evil may heckle and annoy public servants, intimidating them to such a degree as to prevent them from a free and frank discharge of their duties.

When impulse moves the individual to express his desires to his representative in congress no harm can come, but for people to follow blindly the request of "organizers" and forward form requests by the thousands is a dangerous as well as an annoying practice.

The Dublin Revolt

Just how serious the riots in Dublin may prove is problematical. The same amount of violent disturbances in times of peace would excite much more widespread concern than it does now. Great Britain is better able right at this time to cope with the outbreaks than it would be in peace times.

There seems no doubt that the rioting was inspired by outside influences and, thus far, there is nothing to justify the belief that there is any widespread dissatisfaction among the leading Irish people.

England's rule in the Emerald Isle has never been popular with Irish people but be that as it may they are loyal and patriotic. No matter what internal troubles disturb them the Irish people have always responded to the call of the United Kingdom in times of attack by outsiders.

Ireland's quarrel with England over "home rule" and hundred issues is pronounced and never ending, but it is not likely the Irish people will choose a time when the United Kingdom is in peril, to press for a conclusion of the family difficulties.

While the uprisings in Dublin are, of course, a matter of concern, yet it is likely that when the whole matter is finally sifted to the bottom it will be found to embrace few indeed of the leaders among the sons of Erin.

Newspaper Shortage

How serious the advanced and advancing cost of news print paper is becoming is demonstrated by the fact that the Pennsylvania State Editorial Association, at a meeting in Philadelphia on Wednesday, adopted a resolution to increase the price of all one cent papers to two cents.

Not only in the price of news print paper has the advance in cost become a menace to the financial safety of the publishers. The prices of all inks, and all metals, lead, brass and copper, have advanced tremendously. The price of labor too has advanced because of the increase in cost of all necessities of life.

Almost every item of cost which enters into the construction of the newspaper has increased to such an extent as to make a readjustment of the publishing business to meet present conditions almost imperative.

Not only are present conditions and prices such as to cause serious concern, but the end of the advance in prices is not yet in sight.

Each day the demand for an investigation into industrial conditions with a view to determining what, if any, proportion of the cost price advance, is due to manipulation of those who exert great control over the market of the commodities affected.

In the meantime waiting and hoping for an investigation which will bring relief from the uncertainty as to cause, even if it does not stay the advance in price, publishers everywhere are advising each other and people generally to practice the most rigid economy. Everything that can be worked over should be preserved and nothing except that which is absolutely worthless and a menace to health, consigned to the flames.

Poetry For Today

A LITTLE SPOT OF GREEN.

Just as in summer when the day is sweet  
And all the grass is green around our feet,  
A little spot of green in life makes glad  
The downcast spirits and the hearts grown sad—  
A breath of fresh believing in this life  
That meets us all with troubling and with strife.  
You know how fine and high and bright you feel  
When springtime morning through your window peeps,  
And how you rise with muscles taut as steel  
To greet the beauty that upon you creeps—  
Well, so it is that life grows happier when  
A little spot of green comes back again.  
O. sad and brown and dreary were the way  
Without some spot of green to cheer the day,  
And twinkling eyes and smiling lips are just  
The things to lift us from our dreams of dust,  
To bless and charm us, as some green field yonder  
In which the children of the spring-time wander.  
Unto the winter of our sorrowing care  
Love brings a spot of green for us to wear,  
And in that light and joy and cheer of love  
We turn our eyes to heavens that burn above  
With happier light than maybe we have known,  
And so in it the clouds and tears have down.

(By American Press)

New York, April 28.—The extreme anxiety of both miners and operators to avoid a break at the anthracite coal conference that would lead to a strike was evinced as soon as the meeting was called together in the Engineering Societies building. As a result of the conciliatory attitude of each side it seems as though the difficulties may be patched up. The situation was strained at the beginning of the conference, and it seemed as if a break could not be avoided, the rock on which the operators and miners split being recognition of the union. Finally it was agreed that the questions under discussion be referred back to the subcommittee of the general conference committee and the miners and operators separated to talk it over.

PORT OF HEALTH HAS BEEN FOUND

The Discovery of Tanlac Has Made This Possible.

A sea captain would never let his ship leave port without an anchor. He realizes that without something to hold his ship in control in cases of emergencies the craft would be left to the mercy of the angry sea. In the same way an individual should guard himself against the ravages of diseases that have become so common in this country. Without something to aid nature in combating these ills—stomach, liver kidneys and catarrhal disorders, the individual is lost. Thousands have sailed happily into the port of Health on the good ship Tanlac. Tanlac, the new constructive tonic, has been a life-saver to suffering humanity.

The world is full of people with blighted lives — blighted through the modern mode of living in irregularity and excesses. Tanlac is changing the natural consequences of wrong living for its users and is giving renewed health and strength to those many who have sought to regain the wealth they have thrown away—Health.

Run-down, nervous and half-sick people should give their bodies a chance and take a tonic, appetizer and invigorant that will build up the tissues and restore the stomach to a normal working order. Tanlac will do this and more. Tanlac restores lost appetite, brings good restful sleep, banishes that nervous, all-gone feeling, vitalizes the blood and gives the entire system a tuning up.

To those who suffer the misery of a worn-out system, those who lack appetite, who fear to eat the things that they like, and heed the pains of an enfeebled stomach—Tanlac is a boon.

Tanlac is now being especially introduced in Washington C. H. at Blackmer & Tanquary's where the Tanlac Man daily explains its merits and what may be expected from its use.

Tanlac may be obtained in the following nearby towns, Sabina, J. J. Spurgeon; Wilmington, Harry Christopher; Jeffersonville, J. B. Davis; Jamestown, W. F. Harper; Greenfield, Harry Christopher; Bainbridge, A. W. Fetter; Anderson, C. A. Graves; Chillicothe, Muchler Pharmacy; Leesburg, Chas. W. Feller; New Vienna, W. C. Higley; Austin, William M. Near; Bowersville, C. E. Gardner; Bloomingburg, I. Y. Stitt.

Try Mrs. Austin's Pancake, sure to please you, all grocers.

## GOOD PRICES FEATURE SALE

Today Witnesses Closing of One of the Most Successful Sales Ever Held in City—New Owners and Prices Paid for Some of the Best Animals.

The semi-annual sales of the Washington Sales Company, which opened at the Sales Pavilion in this city Wednesday morning, have been unusually good, with exceptionally good prices prevailing, and with buyers for every horse coming to the block.

Thursday evening less than 75 horses remained and Friday morning the work of disposing of the entire number by evening was launched, and bidding usually was spirited.

## GREENFIELD ELKS ENTERTAIN ROYALLY

Local Elks were the guests of the Greenfield lodge Thursday night for initiation and banquet and brought home most enthusiastic reports of the hospitable entertainment of the

Greenfield Elks, the royal good time and elaborate banquet given to them.

The Washington team put on the work, which drew enthusiastic approval from the Antlered Herd. The team was composed of Clark Gossard, C. A. Gossard, R. R. Kibler, C. H. Griffith and Wm. Turner.

About forty Elks from the Washington lodge motored over.

## MIDNIGHT FIRE; SHED IS DESTROYED

A shed owned by a Mr. Cober, on Delaware street, was destroyed by fire at midnight, Thursday, the shed being doomed when the alarm was turned in.

The fire department responded to the call and the motor truck stuck in the mud at the intersection of Delaware and Rawlings streets, so that it was necessary to lay about 400 feet of hose.

The fire was extinguished and the department was back in the engine house within a half hour, extricating the motor truck with little difficulty. It is not known how the fire originated.

## MAN IS FINED FOR STRIKING MERE BOY

John Riley, an employee of The M. Hamm Company's fertilizer plant was before Mayor Oster, Friday morning, to answer to a charge of assault and battery preferred by Thad Wolfe, aged about 17, who was struck in the face by the man as a result of an altercation.  
A fine of \$1 and the costs—\$4.95 was assessed against the man.

## CONGREGATIONAL MEETING HELD

A postponed congregational meeting was held at the First Presbyterian church Thursday night, Rev. Wm. Boynton Gage presiding.  
The purpose of the meeting was to repeal all amendments that were necessary to establish the collegiate church which was done some time ago, the establishing of the McNair Memorial church restored the church to its original name of First Presbyterian church.

## PICNIC DINNER COMPLIMENTS SCHOOL

The Staunton schools have closed for the summer, after an excellent year's work under teachers Otis Burton and Carey Ortman.  
Patrons of the school surprised teachers and pupils by giving them an elegant picnic dinner on the last day of school. Everybody enjoyed the dinner and had a good time.

## GOES TO THE WORKS

Elizabeth Minshal, recently fined \$200 and the costs for bootlegging, was taken to the workhouse, Friday morning, to work out the fine at 60c per day, and will probably be in the institution about one year.

Although having been convicted on various charges, it is the first time the woman has ever been in the workhouse. She is about 45 years of age.

## RESTING EASY

Monk Sammons rested easy during Thursday night, and Friday morning had shown no alarming symptoms.

## HATFIELDS HURT IN AUTO MISHAP

Miss Clara Hatfield, Basil and Alva Hatfield of this city, nearly met death at the N. & W. overhead bridge four miles north of Chillicothe, Friday morning, while in an automobile with Herbert Plummer, of Circleville.

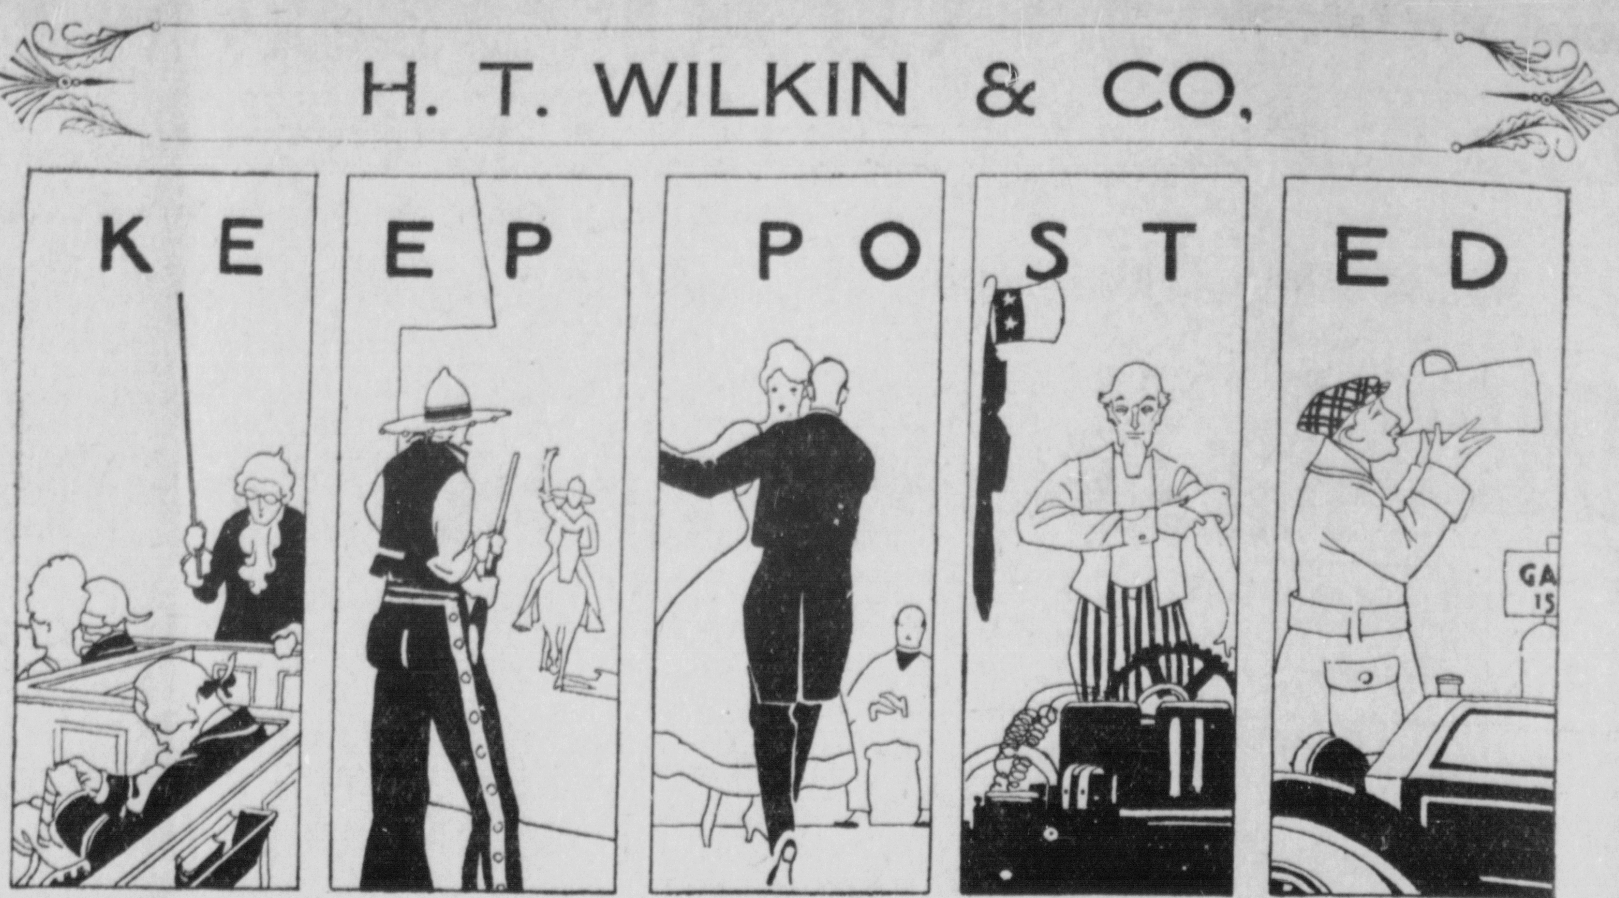

The party was on the way to Waverly, and in making a sharp turn turn at the bridge crashed through the guard rail and tumbled against a wire fence which prevented them from rolling down a 35 foot embankment. Alva was badly cut and bruised and Miss Hatfield was bruised about the shoulder. They were not seriously hurt.

## HICKMAN FINED

After a trial before Mayor Oster, Friday, Frank Hickman was found guilty of giving away intoxicants and fined \$50 and the costs.

Motion for a new trial will be argued Saturday, May 6th. Defendant was represented by C. E. Baughn.

The Bloomingburg schools also

closed Friday, but the Wayne township and Jeffersonville schools will continue another month.

In a number of instances the teachers were complimented, Friday noon, by the parents of the pupils assembling in a body and spreading elaborate dinners, and part of the afternoon was devoted to exercises, games or mingling together socially.

#### MANY PRESENT AT FUNERAL SERVICES

The funeral services of Mr. Edward Pfeifer, held at the residence on the Devalon road, Thursday afternoon, were very largely attended, people coming from all parts of the county, and the gathering deeply impressive of the sympathy felt throughout the community for the heart-broken family.

Rev. Wm. Boynton Gage, pastor of the First Presbyterian church, conducted a short and simple opening service, after which the Independent Order of Odd Fellows held the beautiful ritual for the dead. It was conducted by Noble Grand W. E. Craig and Chaplain Rev. P. J. Hennessy.

A profusion of flowers surrounded the bier, adding their fragrant tribute of remembrance and sympathy. A long funeral cortege formed for the Washington cemetery, where the interment was made in a crypt of the mausoleum.

The pallbearers were Messrs. Wilson Bachert, M. J. Sturgeon, Ralph Allen, J. F. Adams, M. S. Elliott, A. C. Henkle.

Relatives here from a distance to attend the funeral were: the daughter, Mrs. Euphan Michaels, of Springfield, Mr. and Mrs. Wm. Pfeifer, Mr. and Mrs. Wm. Armbruster, of Chillicothe.

#### CHESTNUT PAYS PART OF HIS FINE

Geo. Chestnut, fined \$200 and the costs on a bootlegging charge, has paid \$110 of the amount, with promise to pay the remainder within six months.

#### BABB FUNERAL

Funeral services over the remains of Mr. Frank Babb, of Wilmington, will be held at the late residence on North South street, Wilmington, at ten o'clock Saturday morning, in charge of Rev. E. R. Purdy, pastor of the Friends church.

#### WHY MEDITATE

We know it's hard for a man to make up his mind just where to buy a suit and one that will please him—

But—why mediate—when you can put it up to us to select the suit that will fit you, and one you'll look best in.

We're the ones to worry about pleasing you—but we're not worried, and if you knew what a dandy stock of New Spring Suits we have here, you wouldn't wonder at our confidence.

The new two button sack makes an ideal business suit.

Lots of men make it a point to select their suits just as soon as they learn our stocks are complete—and there are lots of reasons for doing this, too—we'll tell you of them if you say so.

Prices begin at \$10.00 and rise by easy stages to \$25.00.

#### Here Are Suits at \$25.00

Possessing an Unusual Amount of Style and Value

This is going to be a rather unusual season—several reasons will make it so. The manufacturers are making serious complaint that they cannot get cloths to make up the garments and the scarcity of dyes has increased the cost of fabrics as well, making it difficult to secure fabrics of certain colors. In view of these conditions—these Suits at \$25.00 ought to be very interesting to any woman.

One model made of Blue Taffeta Silk, has the new ripple cape collar coat with three silk frogs on the front semi-fitted, correct length, edged with blue velvet ribbon; the skirt is make along the new lines—hangs gracefully.

Other Suits at \$25.00 are made of serge, gabardines, shepherd checks—in fact, checks of various sizes—and every one of them in a striking g, stunning style.

OTHER SUITS AT \$15 00 TO \$40.00.

#### A Dressy Spring Dress at \$12.50

Quite a number of women feel they would like to have at least one of their spring dresses made in a style that will be dressy as well as adaptable for use for street wear. So this dress made of sheer silk crepe, trimmed with effective hand embroidering in one of the best styles of the season will surely appeal to you. Other dresses of silks and other fabrics... \$10 to \$25

#### Silk Petticoats \$3.50

With taffeta silks at their present price level, this special value in a silk petticoat is a value extraordinary. The silk used is of good wearing taffeta—can be had in black, white, light blue, pink and light green—as a matter of fact the variety of colors is broad enough for you to select a petticoat to wear with most any dress or suit you have. Only a limited quantity. Better make your selections early.

Tomorrow is the last day of Miss Maude Ball's Demonstration of Frolacet Corsets. If you have not taken the time to visit Miss Ball, do so tomorrow.

#### MILLINERY

AN AFTER EASTER SALE OF MILLINERY IS IN PROGRESS NOW

If you are not the possessor of a New Spring Hat, this presents an admirable opportunity to buy one early in the season at a very modest price.

### CRAIG BROS

#### If You've Been Thinking of New Footwear—

—then the question of a new pair of pumps is in order.

There are many other questions that might come to mind if you were thinking of new footwear—three stand out very prominently—

STYLE, FIT, PRICE.

That the STYLES shown are unquestionably correct is emphasized by the fact these new pumps are exact duplicates of footwear styles selling to \$10 a pair.

Whatever else is taken into consideration, FIT is a very important element in relation to the sure satisfaction you are to secure from any shoe. We've made a study of fitting correctly.

And, now, PRICE—the price of these pumps is \$3.50 a pair. Made of kidskin—including black.

Then, there are two models of High Shoes made of kidskin in ivory gray and white at \$8.00 a pair that are beauties!

#### The New Neckwear—25c TO \$1.50

New Shapes abound. Any of the new neckwear will so greatly improve the looks of your suit you might want to wear it longer than you had planned.

We've a special group of collars at 50c, made of sheer lawn, marquisettes and georgette crepes. The collars are in all white, or white with dainty color combinations. Wish we had space to say more.

#### Washable Cape Gloves \$1.25 A Pair

Washable cape gloves have made a hit with women. One woman remarked the other day that she was now able to cut her glove bill down to almost half. These cape gloves at \$1.25 are made by a well known maker—pique sewn, embroidered backs, and can be had in various colors such as will be worn this season. We can't guarantee to get so good a quality later at the price.

# AGAINST PHILIPPINE MEASURE

Twenty-Eight Democrats to Ignore Caucus Decree.

OTHERS MAY JOIN BOLTERS

House Majority Leaders, Notwithstanding Defection, Announce That the Measure Granting Independence to the Filipinos Will Not Be Abandoned—Congressmen Who Will Not Observe the Caucus Edict.

Washington, April 28.—In the caucus of house Democrats last night, twenty-eight Democrats, led by members of the Tammany delegation, announced they were not in harmony with the administration's plan for independence for the Philippine islands within four years.

The recalcitrants, with the almost solid minority arrayed against the pending bill, will constitute a majority to defeat the independence measure, and it was predicted that at least ten more Democrats, who were not present at the caucus, would join the revolt. Twenty-eight served notice upon their party colleagues that they would not observe the caucus decree.

The majority leaders said that the measure would not be abandoned. Chairman Jones of the insular affairs committee intimated that an effort would be made to secure sufficient support to pass the bill extending the time within which independence may be granted to ten years or more, if necessary.

The twenty-eight members who absolved themselves from the caucus pledge were: Allen, Ohio; Beakes, Michigan; Brucker, New York; Carraw, New York; Coady, Maryland; Coney, New York; Dale, New York; Doelling, New York; Egan, New Jersey; Estopinal, Louisiana; Farley, New York; Fitzgerald, New York; Flynn, New York; Gallagher, Illinois; Gullivan, Massachusetts; Griffin, New York; Hart, New Jersey; Hulbert, New York; Igoe, Missouri; McAndrews, Illinois; McDermott, Illinois; Maher, New York; Oglesby, New York; Olney, Massachusetts; Patten, New York; Riordan, New York; Sherley, Kentucky, and Smith, New York.

The injection of the Irish question into the debate aroused the resentment of several members, who denounced the suggestion that a parallel could be drawn between the attitude of the United States toward the Philippines and the attitude of England toward the Irish. Impassioned speeches followed, tinged with bitterness unusual in a controversial caucus.

## WATCHFULLY, TOO

(By American Press)  
Washington, April 28.—The submarine issue remains unchanged, according to Secretary of State Lansing, who is without advice as to Germany's reply to the president's demand for an "immediate" abandonment of present methods of submarine warfare. The American reply

has now been under consideration a week and intimations are that another week will elapse before Berlin is definitely heard from.

The trend of the negotiations which Germany desires to initiate aim at a compromise, or mutual understanding, without regard to the president's demand for a categorical answer on the so-called American ultimatum. German diplomacy has apparently succeeded in substituting discussion of a so-called compromise for the definite statement which President Wilson demanded from the Berlin foreign office. In other words, Germany, it is explained, desires to reach an agreement with the United States as to what sort of a reply would avert the crisis. Under these circumstances it is difficult for the United States to insist upon "immediate action."

Announcement in press dispatches from Berlin that Ambassador Gerard would confer with Emperor William at the army headquarters was regarded by officials as being significant.

## MESSAGE FLOOD IS CONTINUED

Work of Embargo Propagandists, They Declare.

Washington, April 28.—The American embargo conference, an organization with headquarters in Chicago, was charged by Senator Hustings, Democrat, of Wisconsin, with promoting a plot to deceive congress and poison public opinion by originating and paying for the propaganda which for several days has deluged senators and representatives with many thousands of telegrams protesting against any break between the United States and Germany.

The Wisconsin senator read in the senate copies of letters sent to his constituents containing four form telegrams of protest like those received by congressmen and saying the embargo conference would pay telegraph tolls on all such messages forwarded. He charged that the forms had been prepared in advance.

Senators Sherman of Illinois and Fomerene of Ohio also denounced the propaganda, but Senator Works of California criticized Senator Hustings for stirring up discussion of the subject. Although Senator Hustings advocated a congressional investigation of the conference, he introduced no resolution, and the debate ended without action.

Senator Pomerene said: "I have received 400 or 500 of these telegrams. Their character was such that it was evident to the merest tyro that they were sent from some inspired source."

## MAY GO TO TURKEY

(By American Press)  
Washington, April 28.—The state department inquired of the Turkish government whether Abram I. Elkins of New York would be acceptable as ambassador to succeed Henry Morgenthau, whose resignation has been accepted by President Wilson. No difficulty over the appointment is expected and the nomination probably will be sent to the senate within a few days.

# CONFERENCE OF GENERALS IS AT HAND

Generals Scott and Funston On Way to El Paso.

OBREGON REACHES JUAREZ

Mexican Minister of War Receives Ovation En Route to the Border, Where He Will Discuss With American Army Officers the Mexican Military Situation—Reyes Rebels May Surrender Arms.

El Paso, Tex., April 28.—General Alvaro Obregon arrived at 9 a. m. today in Juarez, where he will hold a conference on the Mexican military situation with Generals Hugh L. Scott and Frederick Funston, who will arrive here this evening.

The first meeting will take place in Juarez, when the American generals will pay their respects to General Obregon in the custom house in that city. General Obregon will receive the first call because of his rank as minister of war. He will return the call of the American generals in El Paso and then the details for the conference will be arranged.

Just where the conference is to take place is not definitely settled, but it is considered probable that it will be held in Juarez in the custom house in deference to the rank of the Mexican general and because it will be possible to isolate the participants with greater ease than if they were to meet in El Paso.

Dispatches from Torreon say that General Obregon was enthusiastically received there on his way north and General Obregon held a conference with Colonel Gasiola, who represented General Canuto Reyes and other rebels in the negotiations for a surrender of the Reyes command. Colonel Gasiola said that Calixto Contreras was also to be included in the negotiations for surrender, as well as practically all the Villistas operating in the Torreon region.

In a battle between 6,000 rebels and the Constitutionalist army just north of the city of Oaxaca, the rebels were defeated with a loss of 500 men killed and many wounded or taken prisoner, according to a message from Mexico City.

## STILL FIGHT

(By American Press)  
Pittsburgh, April 28.—One hundred leading manufacturers here took preliminary steps to make the Pittsburgh district an open labor market by organizing the Employers' association, which will in the future handle all labor questions and disputes that may arise in this territory. The new body will eventually include not only manufacturers, but contractors, commercial concerns and other employers.

The move to protect themselves against what they call the "increasing and unreasonable" demands of labor is declared by its sponsors to be directly due to the big strike now being waged against the allied Westinghouse industries and thirty-four other industrial concerns in Allegheny county.

## NOT ALL DEAD

(By American Press)  
Washington, April 28.—Patrick Harmon of San Francisco, who is walking backward from San Francisco to New York, passed through Washington. Harmon is steering his way by means of a mirror at the end of an iron rod. He is walking on a wager of \$5,000, and if he backs into New York before June 15 he will win. He left San Francisco on Aug. 5 last.

## STILL CONSIDER

(By American Press)  
Washington, April 28.—The state department and the German embassy apparently are at a deadlock over the disposition of papers seized by agents of the department of justice when they raided the offices in New York of Wolfe von Egel, former secretary to Captain Von Papen, recalled military attaché of the embassy.

The state department is willing to return the papers, as demanded by the German ambassador, if he or some other responsible official of the embassy will identify them as being official. Count Von Bernstorff insists upon having all the documents removed from the office, and refuses personally to identify any of them unless directed to do so by his government. He has asked the Berlin foreign office for instructions.

"And they certainly must know exactly how to mix and roll and cut and bake the crackers."

"They certainly must know their business, when they can do all that and *always* have Edgemonts the same size and the same weight and the same quality."

"I notice that when people know their business their goods are right."

"They wouldn't go to the trouble of packing their crackers in this pure food box while they are fresh from the oven, if they didn't know their business."

"Yes, indeed, you'd be surprised to know how my sales of Edgemonts are *increasing*. I tell you, when people learn how good they are they *insist* on having them—just the same as I want to sell them since I realize what credit they give me with my customers."

Cincinnati Streetcar Runs Wild On a Down Grade.

Cincinnati, April 28.—A double truck Vine-Burnet streetcar, crowded with men, women and children, became unmanageable as it was approaching McMillan street here and ran wild on a down grade for six blocks, jumped the track, crashed into a telegraph pole and caused the death of one woman and the injury of thirty-eight other persons. Miss Carrie Stigler, thirty-one, an attendant at the Cincinnati General hospital, was beheaded. She was to have been a bridesmaid at the wedding of Miss Carrie Geisler, who was with her on the car. Miss Geisler was seriously injured. Physicians announced that probably twenty of the injured were in a serious condition, some possibly fatally hurt, although the exact extent of their injuries could not be definitely determined at present.

The car was crowded on its inbound trip and Motorman Thomas Devanney, in a statement to the police, said that he first noticed that his brakes were out of order when he attempted to slow down to throw the switch at McMillan street. The brakes did not respond and, realizing something was wrong, he could not help allowing the car to run past the switch and onto Highland avenue. There is a steep down grade at this point.

## A Story of Mountain Railroad Life

### By FRANK H. SPEARMAN

AUTHOR OF "WHISPERING SMITH," "THE MOUNTAIN DIVIDE," "STRATEGY OF GREAT RAILROADS," ETC.

NOVELIZED FROM THE MOVING PICTURE PLAY OF THE SAME NAME. PRODUCED BY THE SIGNAL FILM CORPORATION. COPYRIGHT, 1915, BY FRANK H. SPEARMAN.

#### SYNOPSIS.

Little Helen Holmes, daughter of General Holmes, railroad man, is rescued from imminent danger on a scenic railroad by George Storm, a newsboy. Grown to young womanhood, Helen saves Storm, now a fireman, her father, and his friends from Rhinelander, financier, and Robert Seagrue, promoter, from a threatened collision. Safebreakers employed by Seagrue steal General Holmes' survey plans of the cut off line for the Tidewater, fatally wound the general and escape. Her father's estate badly involved by his death, Helen goes to work on the Tidewater. Helen recovers the survey plans from Seagrue, and though they are taken from her, finds an accidentally made proof of the survey blueprint. Storm is employed by Rhinelander. Spike, befriended by Helen, in his turn saves her and the right-of-way contracts when Seagrue kidnaps her. Helen and Storm win for Rhinelander a race against Seagrue for right-of-way. Helen, Storm and Rhinelander rescue Spike from Seagrue's men. Spike steals records to protect Rhinelander, and Storm and Helen save Spike from death in the burning court house. Vein in Superstition mine pinches out. Seagrue salts it and sells it to Rhinelander.

(Continued from Yesterday's Herald)

The men began. The moment the blast was ready, it was set off and they were back again at their drills preparing for the next. Working thus with frenzied energy, they tore great holes into the tunnel's side, but seemingly with no hopeful result. And the work was beginning to tell on them. By the time they had gotten what they hoped might be the final shot ready Rhinelander and the miners—all in the tunnel except Storm—were on the verge of collapse.

Nerved to a final effort by the hope of life, the shot was fired. No ray of daylight greeted their straining eyes as the smoke thinned away. The air, now foul, had so overcome them that few could crawl forward to examine the shattered wall. One grizzled fellow, sturdier than his mates, staggered to it. He looked for a moment at the rock and cried out. Animated by fresh hope, the exhausted men responded by dragging themselves to him.

The blast had not given them the hoped-for avenue of escape. But broadly lined across the jagged surface now dislodged, they saw staring at them as if in mockery of their state, the lost vein, the lead of precious quartz again before them. Untold riches confronted them.

Seagrue, in his room, had heard the distant report of the explosion, but he had been drinking of late and his nerves were on edge.

He strode up and down the room revolving in his mind the situation of the men imprisoned within the big tunnel. He knew enough of the mine to understand perfectly the peril of their position and the necessity of a quick rescue if their lives were to be saved. Further than this, he charged his mind with nothing of responsibility; indeed he would hardly have walked across the street to save one of the imperiled men. Yet, a strangely persistent curiosity moved him to want to know more of the fate of those who were thus struggling for their lives.

A decanter stood on the buffet and he turned to it. While he poured brandy into a glass, he heard a strange noise in an adjoining room—a sound as if of a miner's doublejack. It startled him unpleasantly. He called to his servant and the man, thus abruptly summoned, came quickly, carrying an ice pick.

"What's that noise? What are you doing?" demanded Seagrue harshly.

The man in a half-frightened way began to laugh. "Only picking a little ice, sir," he said, apologetically. Seagrue, without answering, snatched the ice pick from his hand. "Give me my hat and coat," he exclaimed with anger. And as the man hurriedly produced them, he added curtly: "Get out." And serving himself, he made ready to start for the mine.

Attempt after attempt on the part of Rhinelander, Storm and the miners to open a way of freedom was failing, and overcome by the foul air, the men, one after another, had sunk down from exhaustion.

Outside, the engine and little train had brought Helen and the relief and the men were running up the slope.

The few men attacking the face of the cave-in, now greatly re-enforced, worked with desperate energy at the fallen rock. The cool-headed foreman assumed leadership and organized the men so that no energy should be wasted and slowly but steadily the willing workers ate a hole into the mass of splintered rock before them.

In the tunnel where Rhinelander and his stupefied companions lay in varying stages of distress and despair, Storm heard at length the sound of the work on the other side of the wall. He shouted feebly to his companions. "They're coming!" he cried. "Hang on, boys. Get your heads close up here. There's a little air seeping in."

Rhinelander, in spite of the fact that he was among the oldest of those caught in the horrible trap, was standing the strain better than most of them. He, in his turn, encouraged the others not to give up and was the first to hear a call coming through the cave-in. He answered it with all the strength he could summon.

## C. H. & D. PLANS MORE TRACK ROOM

The C. H. & D. railroad is preparing to lay two additional tracks between Main and Fayette streets, and considerable filling in is now under way, and will be finished in the near future, it is announced.

Additional track room is being added so that there will be ample room when the C. H. & D. and B. & O. freight depots are combined a thing which is to be done in the near future if present plans are carried out.

With the additional trackage the C. H. & D. yards are expected to be ample for both roads for years to come.

## YOUTH IN OLD AGE

How to Live to be One Hundred Years Old.

With proper attention to diet, prevention of colds, exercise, plenty of sleep, proper care of the skin and the use of a strengthening tonic like Vinol, years may be added to one's life.

A Civil War Veteran, Mr. W. H. Bowers, of Steubenville, Ohio, says: "I am 77 years of age. I suffered from general weakness, nervous break-down and dizziness. An old doctor recommended Vinol. It built me up so that I was able to go to work as strong and well as ever."

The reason Vinol is so beneficial to old people is because it contains the very elements needed to replace declining strength with renewed vigor, viz—the medicinal elements of fresh cod livers, without oil, peptonate of iron, beef peptonate and a mild tonic wine.

If Vinol fails to build up the feeble weakened system of old people, we will return the amount of money paid us for it. Blackmer & Tanquary. Advt.

of War will make to the apparent intention of the Washington government to maintain General Pershing's columns in Chihuahua until such time as General Carranza's forces have proved their ability to wipe out the bandit menace.

It is pointed out, however, that it is unlikely he will take any action that would precipitate a break with the United States, since intervention is said to be the last eventuality desired by the Carranza adherents.

After a conference with military and civil authorities in the customs house, General Obregon told newspapermen he did not care to talk about the conference.

"Do you think Villa is dead?" "I do not," was the quick reply. "But I am positive he is wounded and suffers for lack of medical attention, and therefore has small chance to be personally active again in any campaign."

## MOVING

By Associated Press Dispatch.

Field Headquarters, Namiquipa, April 28.—Numbers of Carranza troops which had been withdrawn returned today to points in the field south of Guerrero.

The ostensible purpose of this new movement, it was said, was to prevent a combination of the adherents of Carranza and Villa factions against the Americans.

## FLEEING

By Associated Press Dispatch.

Columbus, N. M., April 28.—Villa's scattered adherents are gradually being pushed to the wall, according to reports here today.

These reports said that the remnants of the Villa army are fleeing for cover—the morale broken, the men half starved and almost physical wrecks.

So far as is known here, only two bands of any size remain under the Villa standard, one somewhere on the Durango-Chihuahua border and another in the mountains east of Guerrero.

The rest of the command that attacked Columbus is said to have scattered, singly and in groups of two or three, some to be captured by General Pershing's soldiers and others to return to their homes.

## 736 VESSELS ARE DESTROYED

By Associated Press Dispatch.

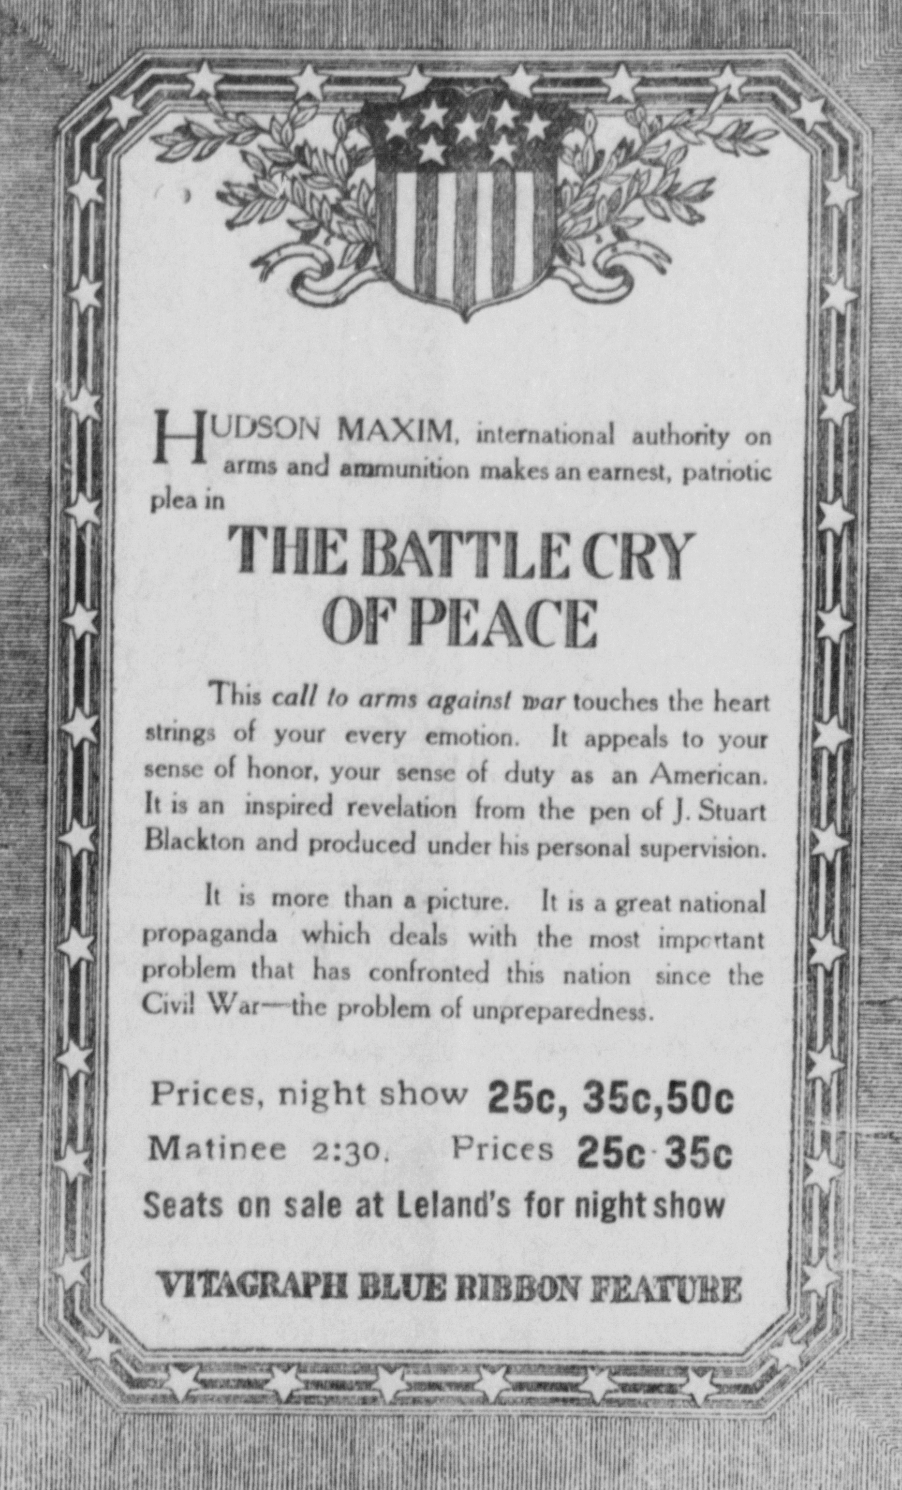

Washington, April 28.—British estimates of the European war toll of merchant ships, given today by the Department of Commerce, puts the number at 736, with a tonnage of more than 2,000,000. Allies' vessels lost, 538; Neutrals, 190.

The estimates, made by a British admiral, gave British losses as 410; France, 53; Russian, 35; Italian, 27; Belgian, 10; Japanese, 3.

## ARGENTINA SELLS SHIPS

(Associated Press Cable)

Buenos Aires, April 28.—The complete dissolution of the Argentine mercantile marine appears to be fast approaching as a result, primarily, of the European war.

Before the conflict in Europe began there were a number of indications that attempts to create and maintain a national mercantile marine representing the Argentine republic might be successful, notwithstanding that the efforts were handicapped by a number of factors. Onerous and vexatious laws and regulations are in force, among them a law that requires that every captain or commander of an Argentine vessel, must be an Argentine. One third of the crew must be Argentinians.

Notwithstanding that the Spanish race has always been notable for number and merits of its navigators, the Argentine descendants of that race show no marked liking for the sailor's life. As a result, there are on record many cases of owners of vessels searching for weeks for properly qualified officers and men for an Argentine ship. In a way the law was circumvented by naturalizing Spaniards, Greeks and Italians, but even this expedient was not always successful.

Many European nations are now paying so high for tonnage that the Argentine owners of vessels, glad to escape the vexatious handicaps, are selling out to the European buyers, or to Uruguayan and Chilean companies, which have less trouble to

content with. In addition, to this lure of gold, the lack of coal, which has already been referred to in previous dispatches as serious, has been a factor in the disintegration of the Argentine merchant fleet.

## LIME CORRECTS SOIL ACIDITY

"All the soils in Ohio will eventually become acid unless lime is applied to correct the toxic substances formed by the decaying vegetation, the disintegration of minerals and the leaching of water," says M. A. Bachtell, soil expert of the Agricultural Extension Service Ohio State University. Even in the limestone regions the top layers of soil have been found to be acid even though the lime rock is but a few feet under the soil. All the soils east of a line drawn from Sandusky thru Columbus to the Ohio River have but little limestone in them because the underlying rock is generally sandstone or shale. West of this line the soils were partly formed by the disintegration of limestone rock and are fairly well supplied with lime. Constant cultivation and cropping, disintegration of the soil and leaching has slowly developed the acid tendency. Two or three tons of ground limestone applied every 4 years, however, correct all acidity.

### THE OLD RELIABLE STILL IN THE LEAD

Just received 1000 lbs. of the famous No. 1 Ryo Coffee to sell at 15c per pound. This coffee makes a good cup at a moderate price. Plenty of fancy strawberries, prices lower. New Early Rose potatoes, new peas, new cabbage, new tomatoes, new sweet potatoes. Oranges, bananas, grape fruit, lemons. A nice kite with 4 coupons taken from Columbus Butter-Krust bread, the kite is good, so is the bread. Killio, the great bug and germ destroyer—you can't afford to be without it, 15c per can.

Get a bottle of Duffee's Cough Syrup; contains no opiates or poisons; pleasant to take; big 6-oz. bottle for 25c.
